

## **DOMBRESKY BIOGRAPHY**

While producing from the alcove of his home in France, dance music producer Dombresky was first discovered by the turntablist legend A-Trak in 2015. After completing an official remix of "We All Fall Down" (For A-Trak) their relationship evolved when Fools Gold released Dombresky's freshmen EP "Reach Perfection".

From there, Dombresky's career started to explode; connecting the dots with fellow Frenchmen Tchami, the two created "Freakin" which was debut on Tchami's EP. The two would collaborate again, when Dombresky released singles "Wait" & "Utopia" on Tchami's label 'Confession'. When Utopia exploded surpassing millions plays it was time to seek an exceptional remix package. That package included: 4B, Born Dirty, Madeaux, and Pyramid.

2017 saw Dombresky team up with yet another house icon, Malaa. The two of them released "Hostyl", through Tachimi's 'Confession'. Most recently, he teamed up with French friend, Habstakt, creating 'Antigone' released via Mad Decent.

As the music grew organically so has the touring, having played Hard Summer, EDC, Nocturnal Wonderland and Holy Ship. This past year also saw Dombresky branch out with his own headline tour through Australia as well as playing support on Chris Lake, Anna Lunoe and Slander's tours. Having received overwhelming support from artist from all over the world including DJ Snake, Avicii, Tchami, 4B, and Anna Lunoe all look to Dombresky as one of the new faces to the international house music scene.
